

Wicked Games (Wicked Billionaires Book 1)

Two young rude and obnoxious billionaires enjoy playing wicked games, and toying with the emotions of both men and women. With money to burn and time on their hands, they give each other challenges. As the challenges get higher so do the stakes. Brett offers half of his shares to Ashford if he chats up the curvy woman at the other end of the coffee shop. Not only does Ashford have to ask her out, but has to make her fall in love with him. Ashford hates the challenge. He doesn't fancy bigger women. I told you I'd get you back. Forsake your model types for her. Brett nodded towards Grace who was stuffing her face with apple pie. I can't do it. It will be as easy as pie, look at her, and look at you. She'll be in your arms in no time. Ashford looked at the woman. Here's the catch. It's not going to be that easy. You have to make her fall in love with you. Once she's fallen in love with you, you dump her. Let her fall apart, let her double that pie and body weight. Only then will you get my shares. If you don't complete the challenge, I take half your shares. Ashford loved the risk of losing it all. That was the thrill of the challenges. He took one last look back at her, and then back at his friend. Deal. Perfect! And so the wicked games began.
