

Homegrown Dandelions (Dandelion Series Book 1)

Love can thrive in unlikely places...After a tragic day years ago, Beth Carter was left to pick up the pieces and move on with her life. But she hasn't. She's shut herself to the world, and has vowed never to love again. Matt Taylor is looking for work, but nothing more. His life is complicated enough with three burdens and a difficult past that won't go away. When Matt arrives at Beth's Garden Nursery to ask for a job, he meets its beautiful owner, and over time, finds something he hadn't expected. Surrounded by plants with fancy names, all Matt has to offer is a scarred heart-- that, and homegrown dandelions. This contemporary romance can be found at the author's website as a free read. Her novels can be found on her website. With over a million words of free romantic fiction on the Internet, she's read by thousands worldwide. Love stories have long been Judith's passion. She loves to capture the dynamics of a romantic relationship, and the challenge of bringing two people together from different backgrounds and finding a way to make that relationship work. Her style often follows the characters even after they marry, so readers get to see how their relationship works after the I-dos. There's always lots of dialogue, as Judith loves to bring the drama home to the reader, through the characters, themselves.
