

Primal Instincts (Blush)

Who are they to argue with biology? Subject A, photojournalist Ian Cole, is sent to ghostwrite a book on sex in various cultures. Instead of finding a white-haired professor, he is greeted by Subject B, anthropologist Ava Simms, wearing only a teeny loincloth and body paint. Observations Sexual energy between subjects increases exponentially. Note the males quickened breathing and barely restrained urge to do lusty and inappropriate things. The female, in turn, decides to demonstrate her extensive knowledge of seduction, play and ritual claiming its research. The results? Neither Subject A nor B want the study to end.
