

How to Make Great Things Happen in YOUR LIFE - A sincere and proven approach to lasting happiness and success

What are great things in life? Money? Good health? Good relationships? Happiness? Yes, of course. And this book is about these topics. But what if the next global financial crisis makes your job and your money disappear? What if you are no longer as healthy as you would like to be? What if an important relationship becomes complicated? What if happiness seems a distant memory? In other words: what if these things turn against you? And what if as a consequence, you think, the whole world is against you? What then? This book invites you to a journey that has a lot to do with the way you see and live your life: the way you think about life and the world you live in. After that journey if you took your time and paid attention nothing will be the same. Great things will happen in your life BECAUSE YOU MAKE THEM HAPPEN.
