

The Truckers Cat

Samantha Randall and Major Logan McCormick believe in a common value that takes on extraordinary meaning. At the Russian Embassy where she lives with her mother and stepfather, Samantha uncovers a plot to assassinate the President. Her father's famous speech urges her to act. She treks cross-country to warn the driver that his cargo carries the proof, but she finds herself stranded in the middle of nowhere. Driving a truck on a special military assignment, Logan sees no choice but to rescue Sam from a bloated lecher. Against protocol, he gives the wildcat a ride. With Russian soldiers searching for Logan's cargo and second team chasing Samantha, they quickly realize they must work together. Making sacrifices for the greater good, they do what's necessary to prevent the unthinkable. Friendship and love are their reward for their struggle.
