

Guardians Joy: A Guardians of the Race Novel (Volume 3)

Running from an unknown past JJ Justice has spent her adulthood lost and alone and vulnerable to the haunting of a past she cant remember. Its no wonder she feels different from other people and not surprising that she chose the police force as a way of standing up for others who are defenseless against the evils of the world, but when her only friend and partner is brutally murdered by a creature not of this world, JJ discovers a greater purpose. She is called to hunt the monsters only she can see. Once again, she resigns herself to living her life alone, because the one thing she knows for sure is that letting people in only causes pain. Guardian of the Race, Bernardo ad Torneo, longs for a woman of his own, one thats as fun loving and loyal as his Liege Lords Lady, Grace, and as soft and gentle as his fellow Guardians mate, Hope, but the chances of meeting such a woman seem slim to none. What with the nightly patrols and his gaming business, he hasnt the time to go searching for love. Nardo is sworn to protect his people and their human cousins from the demons who cross over from the Otherworld. He never thought he would be hunting a vampire; just like he never thought of falling in love with a leather clad ex-cop who can kick demon butt with the best of them. How do you romance a woman who thinks more of knives than roses? How do you help her fight the demons of her soul when she cant remember who they are? Nardo doesnt know, but hes determined to find out. He only hopes he and his new love can find the answers before a monster from Joys past takes away the only woman he will ever love.
