

Her Protector (Family Pendragon Book 2)

Justice di Bagnoregio, a fallen angel turned into a creature of the night... has happily served his kings for thousands of years. The one thing he lacked was a mate. One night under a full moon he is given a precious gift... Dylan Pendragon, the witching. Only to lose her under another full moon. Justice enlist the help of every available vampire, witch, dragon and warmblood human to help get back what was taken from him... The Beloved vampires from past stories return and unite to help their brother in arms. Some also find their mate, but at what cost? Evil forces will also unite to try and bring about a power so wicked, maybe even the combined forces of vampires and witches wont be strong enough to fight it. Only time will tell.
