

## Hard to Forget

A warning ignored a love denied Four years ago, Major Jack Ballentyne followed Special Agent Lowry Fisk into a death trap. Fortunately, both of them lived to tell the tale, but when he had Lowry drummed out of the British Intelligence Service for her own safety and his own peace of mind she knew she'd never forgive him. Lowry Fisk knew, she just knew, that the Service had a mole, and it was up to the Assassins, the secret black-ops unit of the Service she and Jack belonged to, to find him. And as the Assassins leader, Jack should have believed her, even though she had little evidence beyond a gut feeling. But when he hadn't, she'd taken it upon herself to find the traitor and ended up assaulted, shot, and left for dead. Jack had come to her rescue, but it had been too little, too late. Now all she wants to do is forget the attack, the Service, and the sexy, steely-eyed Major with the power to make her feel weak. But the mole is on the move, and he's coming for Lowry to finish what he started. Jack has to get the stubborn, dangerously gorgeous woman to let him back into her life and allow him to protect her without allowing her to worm her way into his heart.
