

## Leopard Moon (Moon series Book 1)

The Moon series is filled with action and romance, shape shifters and strong heroines.--Melissa Marr, NYT bestselling author of the Wicked Lovely series How do you disappear when you come from a family of predators? A wereleopard, Kess is forced to flee her home and family in Miami once her brother's obsession with her turns violent. She runs from city to city, trying to stay one step ahead of the investigators her family has dispatched to bring her home. Kess ends up in the mountains of North Carolina and attracts the attention of Cormac, a young man with a secret of his own. As she attempts to live as normal a life as her were-nature allows, her brother Sek continues to hunt for her. He believes she is the key to revitalizing their weakened clan and is driven to extreme measures to ensure their continued existence. As Kess's relationship with Cormac deepens, Sek closes in, threatening Cormac's life and Kess's freedom. When the moon rises, the hunt is on.
