

## A Thin Ribbon of Smoke (with bonus novel Colt)

Sometimes, falling in love can be murder. Five assassins. One target. Ten million in cash. Winner take all. Former Miami homicide detective Kari Phillips doesn't know she's being hunted. When she entered the Federal Witness Protection Program, she was given a new identity and was moved to a new location. She feels safe now. She's almost finished with the training she needs to start a new career, and her interest in love and intimacy has suddenly been reignited in a big way. Everything's going great. Until a mysterious black SUV starts showing up. Has the man Kari testified against managed to locate her somehow? Unaware that five professional killers are engaged in an unprecedented competition with a tremendous amount of money on the line, Kari is determined to find out why she's being tailed. And, as her list of friends starts getting shorter and shorter, it soon becomes clear that the man she's falling in love with is the only person on the planet she can trust. Bonus: This edition includes the novel *Colt* in its entirety. About *Colt*: October 21: just an ordinary day, unless you're a former rock star. The sole survivor of a plane crash. A private investigator working out of a camper. For Nicholas Colt, October 21 is an unlucky day. A day for nightmares. It always has been, and this year is no exception. Someone is brutally murdering the offspring of an anonymous sperm donor, and Colt's missing client is next on the list. With less than four days to find the young man and, with a pair of drug-addicted study partners, a violent motorcycle gang, a stalker ex-girlfriend, and a host of other obstacles standing in his way, Colt faces the most challenging and deadly case of his life. Praise for Jude Hardin's Thrillers: *POCKET-47* sucked me in and held me enthralled. Author Jude Hardin keeps the pace frantic, the thrills non-stop, but best of all is his hero, the wonderfully ironic Nicholas Colt. This is a

The best PI debut Ive read in years, fit to share shelf space with the best of Ross Macdonald, Sue Grafton, and Robert B. Parker. POCKET-47 is so hot you may burn your hands reading. Highly recommended. J.A. Konrath, author of the Jack Daniels mysteries Hardin gets everything right in his powerhouse thriller debut, which introduces rock starturnedPI Nicholas Colt. Publishers Weekly on POCKET-47 KEY DEATH is an exhilarating thriller that punches way above its weight. It hits you hard and fast with crackling suspense, hair-raising twists and stunning revelations. Word of advice: dont start on this one unless youre prepared to stay up all night. John Ling, author of THE BLASPHEMER Colt is a physical, no-holds-barred PI, reminiscent of Robert B. Parkers Spenser and Lee Childs Jack Reacher, and his debut is action-packed. With a hefty toll of dead bodies, some described in cringe-inducing detail, this is crime fiction at its rawest. Hard-boiled connoisseurs should make Colts acquaintance now. Booklist on POCKET-47 With CROSSCUT, Jude Hardin takes the PI novel and psychological suspense to a new, unrestrained level. Fast, fierce, and relentless.
