

The Vikings Claim (Sizzling Shorts, #16) (The Men of the North Book 3)

Varona has come to terms with her new life with the possessive Northmen. What she hasn't come to terms with is their unwillingness to commit to her fully, as in marriage. An expected and frightening reality has come to light, forcing her to confront the reality and future these men have to offer her. Other men in the village start to make promises of security. The tantalizing offers force her to confront what these men really mean to her, as well as thrust her into an age old tradition that tests her limits. Thor and Gondlir realize they might be losing their grip on the fair, Varona, they have claimed as their own in words, body, and spirit. Yet, with them dragging their feet, it has left her open to the offers of other men eager for the beautiful warrior in their own beds. Faced with the idea of losing her, in a moment of irrational rage, Gondlir, offers Varona up to be claimed in front of the village. Will Varona finally convince the two men she has come to love deeply that she needs them forever? Or will they keep her in a gilded cage of unclaimed possession forever? The third installment of the Men of the North Series includes a hot public menage, a startling revelation, and a cliffhanger that will have you begging for the final book.
