

## Amandas Wolves (Wolf Masters Book 9)

Hoping to break free of the stifling religious constraints of her parents, Amanda Williams has fled her childhood home in Oklahoma to join her sister in Montana. Things are looking up. She even has a promising job interview using her degree in anthropology. Now she just needs to get out of the apartment more and meet people. Sawyer Hamilton has reluctantly moved to Montana to take a job as a wildland firefighter. With the exception of one brother, his entire family lives in the area. Every one of his local sibling shares their mate with a member of another family, the Masters. He has put off meeting any of them for long enough. If his destiny lies with one of the two remaining unmated Masters, its time he faces his fate. Logan Masters is working as a hiking guide for his familys business. Hes aware Sawyer has moved to town, but has avoided meeting him. He doesnt have to come face to face with Sawyer to know they will inevitably share the same mate. When his younger sister presses the issue, he is forced to accept his destiny. They are fated to spend their lives together, but who is the woman they will share? Amanda has no idea what she has gotten herself into when she agrees to babysit for her sisters friend. The unrest she has felt since moving to Montana increases tenfold when she meets the members of the Masters and Bartel-Hamilton families. She has dreamed of two men in her bed for weeks. When she steps in front of them and discovers they are indeed real, she is shocked speechless. Finding themselves mated to a human female, Logan and Sawyer have mountains to climb. In addition to convincing Amanda of her place between them, they must also confront the latest spirit sightings and solve the challenging mysteries Fate has put in their path.
