

Keels Simple Diary Volume Two (Black): The Ladybug Edition

Philipp Keels Simple Diary The all-new installment of TASCHENs bestseller In a world where products are out as soon as theyre in, where communicating without wires doesnt come without strings, and even our accessories need accessories, we need simple tools. A book that helps us look inside because we are overloaded outside. There are three reasons why most people, although they have tried, wont keep a diary: 1. Not every day is very eventful. 2. It actually takes a lot of discipline to write. 3. In retrospect, many find what they have written embarrassing. Keels Simple Diary offers structure for those who dont have time to wonder, making it easy to record lifes moments. It gives the pleasure of a quick response and the sense that no matter whats wrong, more is right. This instant classic is filled with refreshing philosophy and original wisdom. Keels Simple Diary entertains, helps you focus and keeps you company. With an addictive design and curious text, this book gives readers the simple tools to create unique, memorable daily records without all the heavy lifting of blank journals.
