

Kissed by Moonlight

When woman meets werewolf, the sex can drive them wild. Morgane has problems with men. Being a werewolf, and wary of humans, it's inevitable. But when she meets the intense and enigmatic Aelric, she falls hard. She's never experienced feelings like this before: desperate for his touch, crazy for the feeling of his skin on hers, and ready to surrender to him heart and soul. Aelric has never had a problem with women; he's a master of seduction. So when his alpha orders him to seduce Morgane for information about her clan, he accepts. He's entranced by her supple curves and soft lips, but for once, he wants more than just her body. He wants her for his mate. But he can't reveal his true identity, or his intentions. For his part, he's part of a rival clan of werewolves intent on the domination of Morgane's pack. And dark forces are gathering that might destroy their fiery relationship.
