

Kratos: A Sci-Fi Alien Warrior Paranormal Romance (Defender of Earth Book 3)

A Sci-Fi Alien Warrior Paranormal Romance The Alva have been a scourge on the galaxy for long years, but with them gone, many others have crawled out of the dark parts of space to try and fill that void. A group of alien pirates known only as The Grey have stepped in to continue where the Alva left off, destroying homes and families on other planets on their way to Earth. The Kilan are a group of mercenaries, not sworn to protect anyone, but willing to go and fight where the money is. When they hear of The Grey moving in on Earth, they follow, sure that someone will want to hire them to protect the humans, and if not, they'll be on their way. But things rarely go to plan when The Grey and beautiful women are involved, and Kratos, one of the members of The Kilan finds himself smack dab in the middle of both. Money isn't the only motivating factor anymore when he can't say no to a pair of big green eyes and the woman who knows how to wield them to get him to help save the place she calls home.
