

Lambretta Innocenti: An Illustrated History

This companion volume to Vespa: An illustrated history charts the full history of the Italian Lambretta, from its introduction just after World War II by the Innocenti Company in Milan, through to 1972 when they stopped production and sold the tooling to the Lambretta manufacturer in India. Every Italian model is listed including mopeds and three-wheelers, giving production figures, spec and pictures for each one. The book features accessories such as workshop tools, product and advertising literature, calendars, handbooks and race records.
