

## S.E.T.H.

Designed to be a weapon, trained and programmed to follow instructions without question, SETH was not meant to develop willpower, emotions, and desire. Falling in love with a human is unacceptable, and faced with the threat of termination, he is forced to choose kill or follow his heart.\* \*  
\* Also available: S.H.I.L.O. He was nothing more than a backup for the company; only the company underestimated their program. Shilo is free to make his own choices but has one glitch in his programming: very few emotions. He's ruthless, cunning, strong, and doesn't give a damn who he has to go through in order to get what he wants, and what he wants is Star Murray.
