

Law of Attraction: INCLUDING FIVE BOOKS

This eBook contains five eBooks: 1. Law of Attraction - The Missing Links Part 1 After long years of applying deliberately the law of attraction there was something missing for me. When the positive affirmations, visualization and believing dont work, maybe you should go deeper in your soul for the answer. In the first part of this eBook I explain the two missing links that made it possible for me to attract my desires into my life. If we want to use the law of attraction successfully we shouldnt suppress our emotions. Are the bad feelings really bad? What is the secret of creating a better reality, our dream reality from the negative circumstances? This book offers you insight into these questions. At the end of the eBook there is an exercise which helps you recognize where your energies became stuck. 2. Law of Attraction - The Missing Links Part 2 : What to Do with DOUBTS The second part of Law of Attraction - The Missing Links is about our most powerful obstacle that holds us back when we want to apply the law of attraction successfully. This obstacle is the DOUBT. The doubts are powerful wishes we subconsciously believe in. The book offers you a method which helps you to find your negative subconscious beliefs. Do you have deep subconscious beliefs that are sabotaging your dreams? Are you creating the reality that is not in harmony with your dreams? If you have answered yes, this book is for you. 3. Law of Attraction The Missing Links Part 3 : How to Be Happy What makes you happy? How to find happiness? What to do if we want to be happy? Some questions this book tries to answer. According to the law of attraction you are attracting good things into your life when you are feeling good. This book gives you a strange answer concerning the happiness. It is not something we create. It is the question of our acceptance of life or resistance to life. This book explains the

connection between the happiness and our acceptance of life situations, thoughts and feelings. Happiness is always there. If we do not feel it we should look deeper into our soul and evaluate our attitudes towards the life and ourselves. 4. How I Attract My Desires Feelings are the most important things when it comes to the law of attraction. The feeling is the language the universe understands. Every moment of our waking hours we are telling the universe something via our feelings. We already speak that language. Maybe we are not telling the universe exactly what we want. It doesnt mean we cannot change this. This short eBook describes how the author uses his feelings to attract his desires into his reality. 5. The Biggest Secret of Life Do you want to be carefree? Do you want to be calm and happy? Do you want to be yourself? If you dont know how to go through life with ease, this book offers you a mindset that can change your life. If this wasnt the lifes biggest secret, most of the people in the world would live a happy and a harmonious life. You have an inner power but there is a habit that prevents you from connecting to your inner power. This book shows you what you can do right now to connect yourself to your inner strength.
