

Lennon's Jinx (Lennon's Girls Trilogy) (Volume 1)

Lennon's Jinx blew me away!!! I absolutely fell in love with this book. I read this book in one sitting, because I just couldn't book the book down... By Ever and Ever Sight Blogger Can I just say that Chris Myers is an incredible author. She knows how to grab you right from the beginning and keep you reading along until you get to the end and leaves you wanting more and more... By A Diary of a Book Addict ...This was so well done. This is the second book by Myers I have read and loved. I will pick up anything she writes in the future and read it. She is truly a talented writer that knows how to get under your skin and leave a mark that won't soon be forgotten. By My Guilty Obsession blogger ...Lennon's Jinx is more than a love story, it's a life story. One about perseverance, standing up for one's convictions, letting the right person inside, and allowing oneself time to heal in order to love again. I loved it. By LM Pruitt Reader Girls Blog ...This book held happiness and tragedy, loss and redemption, life and death and love..it was brimming with different emotions and issues and it could just as soon bring me to tears as have me shaking in fits of laughter. I loved the characters, the stories and the different journeys I was taken on. This book was great and I cannot wait to know more of Lennon's story! By Pieces of Whimsy blogger ...Fantastic story, I am a sucker for rock stars even those of the teenage kind. I thought this was a perfect backdrop for two very intricate characters who both carry their own baggage. This is the first book I have read by Chris Myers, I definitely plan to read more. By Musings from an Addicted Reader ... Following him around the story I was sure I knew how it would turn out, but then as I discovered more about him and his past and this person he really is, I was thrown. Well done Chris Myers, well done...By The Life of Fiction ...I read this book in a day. It was easy to get stuck in. If meaningful

contemporary YA is your thing, then you should so read this one. By Stuck in Books

Sometimes, you dont get to choose who you fall for... Lennon spends most of his time raising his little sister Currie while trying to skate through his senior year of high school. He prefers groupies with no-strings attached but finds himself strangely attracted to Jinx, the straight-A student in his choir. Jinx conceals the black truth about herself from her friends. She wont admit to them that she screwed up big time, losing her first love and what she once held most precious. When Jinx joins Lennons band to nurture her love of music and ease the guilt gnawing away at her, she witnesses Lennon battling his infamous father. While confronting his pent-up anger at his dad, Lennon exposes vulnerabilities he had no intention of letting Jinx ever see. Their reckless pasts may bring them together or further complicate their messy lives.
