

Lord, I cant do that ...Im only a Cable Splicer! (1)

When James Jim Neff was suddenly given a desire to start a Gospel and Food Ministry, he had no idea of the Where, How, When, but he did know the Why. For Jim is was one faithful step after another, that propelled Operation Provision International to become exactly as its name, a truly international Gospel and Food Ministry that reaches many corners of the world. Jim Neff was an everyday man, who had a regular job and family to support, that is until God tapped on his shoulder and began to encourage Jim to become more than just the everyday man. With each step in the direction guided by the Holy Spirit, Jim began to see new talents emerging from himself that he had never explored. The talents that Jim Neff began to develop began a change in him, which has sparked a fire that now reaches around the world. Jim Neff is now a writer, ministry director, missionary and spokesperson, pastor and warehouse manager who touches many lives through a simple ministry that follows a straightforward path; A box of food, a knock on the door, and sharing the Gospel. Lord, I cant do that Im only a Cable Splicer! It is the story of Jim Neff, and the small beginnings of Operation Provision International. To anyone who takes time to read this straightforward account of how God will bless the feet of those who take him at his word and direction, will see that while you may laugh, cry and shout, that you are more than able to become more than you are now.
