

Loris Wolf Pack, Discovering Her Alpha: Book 1 in A K Michaels Shifter Novella Series (Volume 1)

Loris lost in the forest, regretting her idea to go for a hike, shes a town girl, and definitely out of her depth. Hurt and getting more scared, especially when she hears the howls of a large animal nearby. In her haste to get away she steps out into midair, plunging down to knock herself unconscious. The large beast finds her, having heard her screams, and zeroing in on the scent of her blood. The Wolf changes and the Alpha looks down at the female. With no choice but to help, he picks her up to return to the Packs Healer. As soon as he does, his body reacts and he, at first, has no idea why. All he knows is his Wolf wants out, howling in his head with its urge to mark this human as his. Lori is oblivious to whats in store for her over the next few days as the powerful Alpha carries her to his cabin. Adult content in this novella.
