

## Love Games: A Lesbian Romance

She may be the best, but Im better. And Im going to prove it! Love, lust, and competition. Anna went to the annual Gathering for Alternate Realms just looking for a little fun. Already one of the top-ranked players of the blockbuster alternate reality game, she expected nothing more than a good time and some real competition. What Anna didnt expect was Erin: the best player to ever grace the game and the most beautiful woman shes ever seen. Sparks fly as the competition between the two gamer girls heats up. Always the very best, neither wants to tear their eye from the prize, but the more time they spend trying to defeat one another the more they start to realize that whats in front of them might just be far more valuable than winning any game! Love Games is the latest novel by Mia Archer, author of your favorite geeky lesbian romances!
