You will begin to see the wonderful possibilities that you can attract into your life, you will come to expect the best for yourself, and you will stop settling for second best, because you will feel better about yourself. The quantum factor life enhancement series of recordings uses powerful natural techniques to help you make profound changes in your life, enabling you to visualize, plan, and achieve the future you want. They work by tapping into the vast natural resources available to you in your own mind. All the information is absorbed into your sub-conscious mind, while you are in a relaxed and receptive state - without any effort whatsoever. This program uses four techniques to ensure the effectiveness and sustainability of the course: Visualization, Meditation, Hypnosis and Affirmation. Their easy acceptance into your sub-conscious is ensured by the use of background alpha rhythms, which help the brain achieve a relaxed but not unconscious state. You will be aware of things around you, while being in an ideal condition to learn and retain new information. There are also theta rhythms, which help the brain to relax into a state of reduced consciousness.
