

The Moon Under Water

The Moon Under Water By Lynne Barrett-Lee What would you do if you suddenly discovered that your husband had been lying to you for years? Happily married, with two teenage sons, Alex Taylor considers herself lucky. And when she hears her childhood friend Cathy has died, she finds herself counting her blessings. Shes also surprised that shes been left a bequest. They lost touch with one another almost twenty years ago. Why would Cathy remember her now? She really cant imagine but shes about to find out, because shes been left something else something that changes everything. Its a letter confessing to the two year affair Cathy had with Alexs husband, Sam. But its history, he entreats. Its long over. It meant nothing. Surely Alex can forgive and forget? Should she? And can she? Shes not at all sure. But it looks like she wont be allowed to. Because it seems Cathys left them a third thing as well. A teenage daughter. Who wants to come and find her father. The Moon Under Water is a novel about secrets, and the ripples that spread when they are suddenly exposed. Its also about how betrayal not only re-writes the past - it has the power to also re-write the future...
