

## Mim Warners Lost Her Cool

Megans boss, Mim, has lost her cool. As the president of the cool-hunting (trend forecasting) company Pravda, Mim has just gone on public television and announced that T-shirts with Slut emblazoned across the chest is the next trend in the tween girls market. Needless to say, her clients arent happy and neither is the CEO of Pravda. So Megan makes it her mission to discover why Mim lost her cool. And she spends her free time watching Mim, which is a welcome distraction in helping her get over her ex-boyfriend, Ian, who was writing a book about an evil cool-hunter. Hmm, But when Megan discovers that Mim has agreed to help Ian publicize his book and that her strategy lands them at the scene of a crime, Megan finally realizes that Mim really has lost her cool.
