Not yet. But soon one will want her love, and the other, her life. Its been a long hot summer, and the rivers are running dry. The drought brings the devil to the small town of Burgess on the eastern edge of California, on the dusty plains near Death Valley. And they dont call it death valley for no reason. Not when theres a serial killer on the loose. When a woman is found murdered and mutilated in a dried up river bed, her hair savagely shaved off and her eyes cut out, young beat cop turned detective Jack Slade gets his first piece of real action, something hes been yearning for in his quiet post out in the middle of nowhere. But as the bodies begin to pile up and the mystery of the serial killer grows more tangled, Jack soon realizes that he might just have bitten off more than he can chew. Jessie Trent lives a quiet life, and one she hates. Shes tasted something more, but the death of her mother two years back has forced her home, back to the town she left for good reason, a town she still has plans to leave. When her friend is found murdered and mutilated, however, she finds herself standing on the path between Jack and the so called Butcher of Burgess - a serial killer with a unique calling card that will put Jessie right in the middle of his sights. The River Runs Dry is a scary romance set out in the fictional town of Burgess in Eastern California.
