

Moonlit Embrace

When a new werewolf comes to town, shy desk clerk Johanna does everything she can not to fall for him. The cute fool is ruining her life - starting with publicly declaring Johanna his Mate in front of her shocked coworkers, her overbearing sister and anyone else close enough to hear his growl.

Embarrassing. The sensible thing is to leave Baron Wyatt alone, but when dangerous forces from his past put them both at risk, they must work together to find a murderer, and maybe even true love, along the way.
