

## A Night at the Fair

The two cities were separated only by a thin well-bridged river; their tails curling over the banks met and mingled, and at the juncture, under the jealous eye of each, lay, every fall, the State Fair. Because of this advantageous position, and because of the agricultural eminence of the state, the fair was one of the most magnificent in America. There were immense exhibits of grain, livestock and farming machinery; there were horse races and automobile races and, lately, aeroplanes that really left the ground; there was a tumultuous Midway with Coney Island thrillers to whirl you through space, and a whining, tinkling hoochie-coochie show.
