

Silent Guilt: Book 2 (The Silent Series)

The conclusion of the sexy, fast-paced suspense story that started in SILENT NO MORE. Hed let his past go, forgotten his guilt until he thought his sins would break them apart. Nicholas Lockhart found everything he always wanted when Shannon Taylor entered his world, but knew he would never deserve. Still, she wanted him, and that he couldnt deny. Selfishness prevailed. She was the calm in his storm, but they always say that blood is thicker than water, and sometimes that stands in the way of the one a person loves.

Every relationship starts on solid ground, but the real test of endurance is when the skeletons are released from their burial grounds, proving that the world is not as big as we think of it to be, and connecting two single souls that were never before allowed to meet. Nicholas Lockhart always let his anger get the best of him, causing destruction in the wake of things hes passionate about. Now left with the aftermath of his wrath, he realizes that he possibly made the biggest mistake of his life, one that isnt so easily reversible. Guilt is the one thing that can destroy a soul, especially if left to kindle. There is only one way to smother it at the source: repentance. Will he go after what means the most to him or let them go? Nothing stays silent for long, not even guilt. No Cliffhanger. Due to the contents of this book, it is intended for mature audiences. *** If you purchased this book before March 1, 2016, please email Amazon to push the new content to you. The second edition of this book is now available. ***
