

The Stacks (Part 1)

The entire three part series is now available! When Melanie Potter walked into the university library two years after graduation, she never expected to run into Professor Everett. So when he surprises her in the stacks, looking just as handsome as she remembered, she cant deny her obvious attraction to the once forbidden man shes wasted years dreaming about. Tristan Everett knows having a drink with a former student, especially one as enticing as Melanie Potter, is a mistake. But he takes one look at her and knows he has to have her. He makes it clear from the start, he isnt looking for anything serious, which is just fine by Melanie, who is only in town for five days. But as they embark on an intense affair, they both have to ask: will five days really be enough?
