

Nomads of Gor - the Chronicles of Counter-Earth Vol. 4

At the risk of death, Tal Cabot, warrior and tarnsman, left the forbidden Sardar Mountains on a mission for the Priest-Kings of Gor, the barbaric world of Counter-Earth. The Priest-Kings were dying, and he had to find their last link to survival. All he knew about his goal was that it lay hidden somewhere among the nomads. There were the Wagon Peoples, the wild tribes that lived off the roving herds of bosk, fiercest of the animals of Gor. But still more fierce were their masters, the savage Tuchuks. All men fled before them when they moved. All except Tarl Cabot, who stood alone, watching the oncoming clouds of dust that might bring him death.
