

Pleasure Control (Pleasure Games Trilogy)

Cathryn Fox kicks off her Pleasure Games series with the erotic romance *Pleasure Control*, in which a most unexpected couple discovers their hidden desires are about to be exposed. In *Pleasure Control*, straight-laced scientist Laura Manning works to create a drug to calm the libidos of men who've overdone the Viagra, only to find herself swept up in unexpected sexual adventures with a coworker. Laura's colleague Jay Cutler agrees to be a human test subject for the potion she's developing, but they're both titillated to discover that it has the opposite effect intended: Jay's sexual desire goes through the roof, and Laura becomes a willing participant in the sexual adventures that come next...Spicy and provocative, *Pleasure Control* is an erotic romp that's sure to entice fans of *Fifty Shades of Grey* and Sylvia Day.
