

The Contagious Power of Thinking: How Your Thoughts Can Influence the World

Wouldnt it be great if instead of catching a nasty cold, we could catch our friends good mood, or our colleagues healthy habits? You dont need to be on the Internet to be connected. We are all part of interconnected networks, whether were aware of it or not. Everything you think, say and do can be felt by people on the other side of the world. The Contagious Power of Thinking provides astonishing scientific evidence to show how habits, attitudes, emotions and even kindness spread rapidly outwards from person to person through personal contact. Learn the fascinating facts behind:how infants feel their mothers emotionshow more than 25% of your happiness is due to the happiness of your friendshow your brain reads the emotions of others and reproduces the feeling in youand how your best friends sisters hairdresser can make you fat!In this book, David Hamilton explores the amazing implications of this phenomenon and suggests that a small group of committed people really can change the world.
