

## Prince Of Vezul: Tallen

Tallen, which happens to be a prince from the planet Vezul, comes to Earth seeking a woman to become his princess. He lands just outside Las Vegas, where he spies a buxom beauty named Cari. He comes to her aid when a casino patron gets a little too grabby with Cari, whom he has already decided will be his princess. Cari lives paycheck to paycheck in her dead-end, depressing job. When a gorgeous stranger approaches her, she assumes he must be crazy with the talk of making her his princess and having his royal babies. But when he comes to her aid, she realizes she doesn't want him to get in trouble for defending her honor. She rushes him out the back door, only to have him kiss her. When his technology shocks her into passing out, she finds herself on a spaceship that insists on being called John Wayne with this gorgeous alien on a one way trip to the planet Vezul. Will an interspecies relationship actually work, and does love truly conquer all?
