A Hebraic Perspective: The Bible Explains the Origin of the Sphinx and Pyramid of Giza For thousands of years, the three Pyramids of Giza and the Sphinx have asked more questions than they have answered. A vast amount of books have been written which have revealed incredible facts concerning their construction and their incredible astronomical qualities. The Pyramids of Giza are aligned with certain star constellations in the Biblical Mazzaroth (Zodiac in Greek). The Great Pyramid of Giza consists of approximately 2.3 million stone blocks weighing around 2.5 tons each. Some of the blocks weigh up to 50 tons. Yet despite the vast amount of blocks used, and the incredible weights involved, the mathematical accuracy of the layout of the building is astounding. Who built these three Pyramids of Giza and the Sphinx? How did these pyramids acquire such mathematical and astronomical accuracy no man can equal today? Many simply say The Egyptians built them, this is simply not a satisfactory answer as all facts undoubtedly prove that they were built way before the Egyptian dynasty. No Egyptian writing hieroglyphics or Egyptian artifacts were found in the Giza Pyramids as was found in the hundred and twenty three other pyramids. Despite the collective amount of books written about them, the Pyramids of Giza remain a conundrum wrapped in an enigma and surrounded by a paradox. Many scholars have discovered and charted their astronomical significance. They have unearthed their geometric alignments and pinpointed their mathematical accuracies. And the conclusion they have reached is that some lost civilization or race of advanced people were responsible for these mammoth megalithic structures. But all these scholars have one thing in common; they have failed to inform us as to who these people were and from where they derived

their knowledge and skills. When one or two of these esteemed scholars do attempt a guess as to who these mystery architects and builders may have been, their speculations amount to little more than sand castles built on the beach of a raging sea. It is the authors contention that sound Scriptural evidence be used as the basis to reason from and then use scientific facts to prove the infallible truth of the Bible. Yes, the Torahs timeline is indeed laid out in Gizas Great Pyramid! This booklet is a Biblical exposition when considering the construction of the pyramids, proving that the Bible undoubtedly gives the information.
