

## Tarnished (Wolf Gatherings Book 1)

Wolf shifter Mackenzie Davis has no interest in mating with another wolf. A horrific experience in her past has hardened her to this resolve. She loves her life as is, with the perfect job, the perfect friends, and the perfect boyfriend a human one. Nevertheless, her mother implores her to attend this year's Wolf Gathering. Reluctantly dragging her feet, she agrees to one day only. Drake Spencer has come to the gathering from Texas with his family. He's twenty-eight and believes his chances of finding a mate are slim to none, especially since he saw the woman he felt connected to leave with another man at the last gathering. But what if the woman who has consumed his dreams for the last two years is not actually mated? When Mackenzie and Drake meet, sparks fly. Kenzie hopes to deny the claim on her. But can she? The call of mates is stronger than she expected. What will happen to her sense of self if she follows this man to Texas? Not to mention Drake. Can he live with the mental scars of her past?
