

Relentless (The Marsh Brothers Book 1)

The last thing Michaela Prentice expected was to end up in bed next to her friend Jordan Marsh after a wee bit too much champagne. The sex was incredible but she doesn't want their one night to ruin their friendship. The last thing Jordan Marsh wants is to remain friends with Michaela. They'd crossed the line from friends to lovers and that was where he was going to stay, after all he'd been relentlessly plotting her seduction for months. Now Michaela has woken up to a slight hangover, a relationship with a guy she thought she knew, a mother planning a wedding, and a brother and a best friend who think it's important to run a background check on your new man. What could be more normal? Just as Michaela is beginning to adjust to the status of their new relationship things start exploding; literally. Warning: This book is funny, steamy and contains sex scenes with chocolate that some readers might find delicious.
