

## Learn PowerPoint 2000 & Learn on Demand Personal Navigator and CD-ROM

For courses in Microsoft Office Professional for Windows, Access for Windows, Word for Windows, PowerPoint for Windows, Excel for Windows, and Introduction to Operating Systems The Learn Series uses a proven approach to guide students through the basics of the latest software applications. The Learn manuals provide visual step-by-step guides with simple directions, multiple screen shots, and plenty of exercises. They are designed for 6-8 contact hours. The manuals include the OnDemand Personal Navigator CD-ROM that provides textbook specific computer based training in both live and simulated environments. Students use the software and the accompanying data files to complete the in-text exercises. The Learn Series has been designed for students who need to master the basics of a particular software program quickly. The books are highly visual in nature which allows the beginning student to work along with the book. This is particularly suited to students with limited computer skills or for a course that emphasizes independent learning.
