

## The Sacred Feminine: Searching for the Hidden Face of God

Through thousands of years of interpreting the Bible through the lens of changing languages and societies, and varying regard to females and feminine qualities, the concept of God has become more and more male to the exclusion of Gods female side of wisdom, mercy, grace, and nurture. Let us attempt to rediscover the truth and expand our understanding of the complete and perfect God. If God is our creator and we were made in the image of God, then God is both our father and our mother, with a perfect and complete balance of attributes. The search for the Sacred Feminine is the search taking place within each of us. It is a search for the recognition, integration, and balance of our masculine and feminine attributes. The individual need to find and integrate these energies is reflected in our evolving society and theologies. After thousands of years of distortion, it is now time to look at both sides of God.
