

## Breeder Project

Simone desperately wanted a child of her own. Unfortunately, the draks did also--hers. But she wasn't about to give up her babies without a fight! She didn't care if they were the donors! Simone had no idea that the fertility clinic she'd chosen was a front for a breeding project not of this Earth, or that she would find herself battling for rights she'd always considered hers by birth. She discovered, though, that her captors, the hardened warriors of the House of Jakaar, Prince Camryn, Kael, and Ean, had bonded with her in an unexpected way that turned their world upside down.

She has written science fiction/futuristic/fantasy under several Kaitlyn O'Connor, in honor of her Scottish grandmother, Lyssa Hart, and Angelique Anjou (for the French ancestry), all combined here now under the single pen name Kaitlyn O'Connor.
