

Screwed!: How Foreign Countries Are Ripping America Off and Plundering Our Economy-and How Our Leaders Help Them Do It

America is being Screwed!, say Dick Morris and Eileen McGann, by China, Russia, the EU, and other nations with the help of our own political and business leaders. The co-authors of nine explosive New York Times bestsellers including *Revolt!*, *Catastrophe*, *Fleeced*, *Outrage*, and *2010: Take Back America* Morris and McGann now expose a massive global scandal that affects the lives and livelihood of every American: the undeniable truth that foreign countries are ripping America off and plundering our economy. With the unemployment rate soaring and the economic picture growing bleaker by the hour, *Screwed!* is a necessary wake-up call for every concerned citizen, from middle class workers and Tea Party conservatives to labor leaders and environmentalists who oppose globalism and its negative economic and environmental repercussions.
