

## Shift Happens (I Heart Shifters Book 1)

I Heart Shifters Book One Ellie Reynolds runs a nail salon that caters to shifters of all varieties. The proverbial shift hits the fan when billionaire mogul Jackson Lawrence walks in the door and offers Ellie two million dollars to sell her shop. Ellie has no intention of selling out, especially to someone who plans to bulldoze her shop to the ground and replace it with a fast food joint. Their battle of wit and will is brought to a sudden halt when Jackson's enemies appear, throwing them into a fight for their lives. Jackson believed he'd left violence behind when he resigned his position with the Blood Wolves, a secret shifter military group, but someone wants his company's cyber invention and will stop at nothing to get it. He didn't mean to drag Ellie into his mess, but he's willing to do anything to protect her and the firewall his friend created...anything except fight his attraction to the outspoken redhead he's suddenly responsible for. Jackson soon learns Ellie is hotter than he first gave her credit for...like dragon hot...and life is about to get a whole lot more interesting. Sometimes shift happens when you least expect it. Reader Note: contains BBW heroines, billionaires, humor, werewolves, dragon shifters, and paranormal erotic romance elements
