

Hunters Edge

Some love can last a lifetime-their love was destined to last longer. Angels first words to Kel were Im going to marry you. She was seven at the time. He was eight. And he didnt laugh when she spoke the words. Best friends as children, lovers as young adults, they had an unexplainable bond. Their future looked set. Until the night they were attacked by a creature that couldnt exist. Angel survived the attack-barely. But Kel didnt. Or at least, nobody thought he did. His body was never found and Angels life would never be the same. The attack might not have killed Kels body, but it sure as hell killed his heart. Twelve years later, theres one part of his former life that he cant move past. Angel. He cant let her go, but he cant have her either. She doesnt even realize he is still alive. But when a threat surfaces, Kels willing to do whatever it takes to protect Angel. Even if it drives them both to the edge of insanity and back. Warning: Some violence. Some sex. Some bloody violence. Even a little bit of bloody sex. Not all of the sex is between the hero and the heroine, even though every time that happens, the hero closes his eyes and thinks of England Angel. Not exactly a traditional romance, but I promise it does end HEA.
