

Sound of the Tide

When the love of her life, and the father of her unborn child, dies unexpectedly, Piper's world collapses. In an ill-advised attempt to keep his memory alive, she moves into their dream home—the one that Daniel was working on when he died. Alone and grieving, Piper struggles to carry on and to pull herself out of her spiraling depression in time for the birth of their baby. When Kevin, Daniel's best friend, offers his support and confesses a long-held love for her, Piper must ask herself some hard questions. Will she ever be able to let go of the plans she made with Daniel and recover from her heartbreak? Can she overcome the guilt she harbors over her blossoming feelings for Kevin? Will she learn to love again?
