

Honors Flight: Fallen Empire, Book 2

After spending four years fighting for the Alliance, fighter pilot Alisa Marchenko only wants one thing: to reunite with her young daughter. But this involves a journey to her former home world, which has become the last imperial stronghold. Since the imperials have a lot of reasons to loathe members of the Alliance right now, just getting down to the planet will be a challenge, and it doesn't help that her passengers are stirring up trouble of their own. Even if Alisa is able to land, she may find that more questions await her than answers, and that her late husband kept a startling secret from her, one that could change her life forever.
