These short stories are about 20-25 pages each. All of the paranormal suspense series books contain no violence, no swearing, and no intimacy, so they are suitable for teens and up. You can read the books one-by-one as they are released, or you can wait for the boxed sets to be published once the series gets enough books in it. Its your choice! Because I write so many series concurrently my readers find the regular releases are the best way to stay up to date with the latest progress. If you prefer to binge-read once a storyline is complete then just wait for that boxed set. A portion of all proceeds benefits battered womens shelters.
