

Shifters Storm

She needs their courage and their bodies. The feeling is mutual. Law enforcement warnings be damned, nothing will stop Rane from returning to the Chinook Mountains to discover who murdered her mother, a fellow forest ranger. Except maybe the fact that her elk shifter lover, Songan, is in the middle of rut season. The delay is just long enough for a newcomer from the far north to enter the picture. A massive grizzly shifter with his own need for Rane. His dark, brooding presence feeds dreams so erotic, she feels like she's losing her mind. Yet keeping him at arms length isn't an option. She needs his heightened senses, along with Songan's, to follow the cold trail of her mother's final hours. With winter closing in, the threesome heads for the mountains, where, in a cramped cabin, their mutual lust explodes. But the mountains can't shield them from deadly danger. Warning: Menage with complications. Shape shifting with complications. Outdoor sex, cabin sex, dream sex with ropes. Woman on a mission, and men with muscles upon muscles answering the call of the wild.
