

Raise Your Hand If You Have Issues

Achieving success, happiness, and inner peace only happens when you stop trying to mold yourself into other peoples expectations. Its ok to take advice from friends and family about starting a business or improving your relationship, but the key to winning in life is learning how to think for yourself and set your own boundaries. As a college drop out, former Air Force Sergeant, single parent and transit worker from the south side of Chicago, I wanted my life to mean something. That opportunity came when I stepped out on faith to live my dream. That courageous step resulted in 5 best selling books, a national radio show airing in 100 cities, 2 national TV shows, mentoring partnerships and social activism. Those things never would have happened if I didnt learn to become an expert at managing my own life, my own business and my own journey! Stop trying to fit into someone elses box. Dare to be different and create a unique life that works best for you! ~Michael Baisden
