On Tuesday you will Measure profits by account. You will be shown how to measure the profitability of major customers and to draw up league tables to enable profit improvement strategies. On Wednesday you will Plan for success, building on the analysis of growth opportunities and profit measurement already considered, to result in a best judgement final plan. On Thursday you will learn to Negotiate to win-win; success relies on understanding the difference between negotiation and selling and being able to conduct negotiations to produce a win-win situation in which the objectives of both sides are considered. On Friday you will look at Control activity levels and the monitoring of standards of performance to enable the presentation of plans and progress, allowing the measurement of success against these plans. And finally, on

Saturday you are reminded to Manage relationships with an introduction to the Relationship Model which describes how business with a customer changes as it moves from a transactional or short-term sales achievement, to collaboration with long-term customer value and retention.
