

The Mitchell Money (The Martinson Ranch Book 1)

Before his death, Rachel's husband hid their money, leaving her nearly destitute. The only man in Maystown who can help her find the money is the surly ex-cop who owns the ranch next door, the man who ran into her with his battered pickup. She doesn't want to accept Gary's offer to trade his investigative skills for her cooking, but if she doesn't find the money soon, she could lose her new house. Gary is reluctant to get involved with the rude woman who backed into his truck, but she needs his help, and he needs a cook at the ranch. He suspects Rachel's husband hid more than his money. Can she handle the truth about the man she'd been married to for so many years?
